

K-LOVE. Five letters that mean so much to me, to my friends, and to those that do not know Him.

It may not seem as if a radio station could impact a 15 year old's life, but K-LOVE is the only station there is that gives the listeners maximum time to hear Christian music. And when there isn't music, there are Christian updates that actually give you advice and help you in life, rather than meaningless commercials. A month ago I wrote a paper about surviving my freshmen year. In summary, it was about how I couldn't handle all the swears, the nasty talk, and how not even my Christian friends led Christian lives. It was all going downhill, and the only thing that boosted my spirits during that year was K-LOVE, because everyday I would turn on that radio and I would just jam. The words would speak to me, as if they were written just for me! And now I realize that "I can do all things through Him who gives me strength" (Phil 4:13). K-LOVE gave me hope, and I hope that I will be able to listen to K-LOVE for many years to come. Not a changed K-LOVE, but a K-LOVE just how it is today.

If K-LOVE were changed, it would greatly effect the local community because it might not be pure Christian. With K-LOVE being Christian 24/7, anybody who turns to it is going to hear the Word. There are so many people that need the Word and that are changed by K-LOVE. One of the ways I witness is through K-LOVE, and without it, it would be much harder to share the Word with my friends. The music makes them ask questions, which is a headway into the Word. It is much easier to witness with a headway, than just coming out and saying it. But I can come out and say that K-LOVE is in the public interest because the station has planted so many seeds in so many people, and God has watered those seeds, which have grown into full blown believers. I have at least 80,000 new brothers and sisters in Christ because of K-LOVE, and that is just this year! I cannot wait to see them all in heaven. Think of how many more people could be saved from going to hell, a real place that is worse than earth now! Now that is reality! People have to hear this. It is one of the best tools that God can use. So please, I beg you, do not get rid of K-LOVE. Do not change the station whatsoever, because if you do, there will be a huge impact on the world. If one person is not saved that would have been saved through hearing the Word on K-LOVE, millions of others might not be saved either over the course of many years. Again, I ask you to think about your decision strongly, and make sure it really is the best for the world. Wordly songs are wordly. They get you nowhere. Christian songs are from God. They help you to find your way up there. Thank you for taking the time to read this and may God bless you!
